What's New in the O O RegEditor?

• Retrieve the e-mail address of every last recipient within a mailing list.

• Mail Merge - Email List Merge will instantly "mail merge" hundreds of people from a single mailing list into a single e-mail message. It can be used for company news, holiday greetings, and special promotions, or to send out a personalized membership card. Click the "Download" link to the right to start using this great tool.

Description: • Re-design your internet browser homepage, start page, and bookmarks in one single click. A homepage gives the visitor a feeling of entering a website and a start page gives them the feeling of "connecting". A bookmarks page gives the visitor a feeling of "being here". It's all up to you.

• Smart Bookmarks and Start Page Wizard will change your internet browser homepages, start pages, and bookmarks to match your own style. This will make your web experience easier and more enjoyable!

Description: • Locate over 200 "missing" IP Addresses to our nation's top government agencies. These missing IP addresses are the ones that are unregistered, not in use or simply not connecting to the

internet. Use this app to find the missing addresses of all government agencies, including the military and NASA. No need to use paper and pencil or waste hours trying to locate the exact location of the IP address. Just fire up the app and off you go! The app is user-friendly and easy to use.

Description: 'Apply Patches for your Windows OS. Patches are tiny pieces of code that are used to fix a problem in an application. If a bug is found, a patch may be made to the application to correct the bug. Usually, a patch needs to be applied to the application in order to fix the problem.

Description: 'Create a launcher (start menu button) shortcut for a program on your desktop. Programs can be launched using the start menu. This app can be used to create a start menu button for your favorite program. Note: The program must be available as an installer. It can be a EXE or MSI installer. The developer of this app must provide an installer file for this app.

Description: 'Create an uninstaller (uninstall shortcut) for a program on your desktop. Programs can be uninstalled using the desktop
